

RESOLUTION NO. 90-2

WHEREAS, New development has a substantial impact on municipal facilities, such as transportation, sewer and water systems;

WHEREAS, It is unfair to place the entire burden of these costs, which are necessitated by new development, on the township's residents through higher taxes; and

WHEREAS, Impact fees represent an equitable way of sharing these costs between new development and the township's residents;

NOW THEREFORE BE IT RESOLVED, That Penn Forest Township, Carbon County supports the passage of legislation to authorize municipalities to impose fair and equitable impact fees on new development to pay for the costs of the infrastructure improvements needed to serve that development;

AND FURTHER, That such legislation include the following provisions:

1. The ability for municipalities and developers to continue to negotiate in good faith for offsite improvements;

2. The authority to use impact fees to pay for the extensive administrative costs a township must incur in order to charge impact fees;

3. The flexibility for a municipality to establish the boundaries of each transportation service area in which impact fees

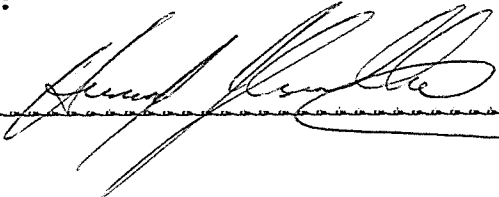

will be levied.

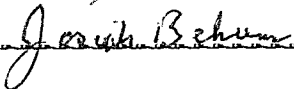

4. The ability to collect impact fees for up to one year from developers who apply for subdivision approval while the impact fee ordinance is in the development stages; and

5. The discretion to appoint members to the impact fee advisory committee who represent a variety of factions within the municipality, instead of loading the membership up with individuals who represent the special interests of the building and real estate industries.

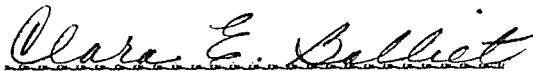

Resolved at a regularly scheduled meeting of the Board of Supervisors of the Township of Penn Forest, the 4th day of September, 1990.
