**WAIVER Subsection 210-14.A. and B. Plan Scale and Size**

Given the size of the site and adjoining properties we have used a 30 X 42 sheet for the plan set as well as a scale of 200 on Sheet 2 to be able to show enough detail.

The existing access roads/driveways within the campground have existed for many years and are not proposed to be modified.

**WAIVER Subsection 210-26.D. Lighting Standards**

Since this is a campground, standard lighting requirements do not apply. However, existing lighting will be supplemented, where required, to adequately illuminate common and critical areas.

**WAIVER Subsection 210-15.D.(7), (8) and (9) and 210-27., 28., 29. And 30. Improvements Requirements RELIEF REQUESTS**

Since all improvements will remain private and not be dedicated, the applicant requests a waiver of these provisions.

Subsections that do not apply to our proposed project (relief requests):

**Subsection 210-14. G.(2)(e) Environmental Resources Site Design Assessment** Since this is an existing campground within which existing footprint improvements are proposed, a site assessment serves no purpose.
